AIR COMPRESSORS

DIESEL POWERED COMPRESSORS

KOHLER Diesel

Model **WD38/120**

DISP. cfm/lpm:	37.6/1064
FAD cfm/lpm:	29.0/821
Tank Size:	120Ltr
Weight:	205kg
Size (LxWxH):	147 x 53 x 103cm
Engine:	KOHLER Diesel
Engine Model:	15KD440
Engine HP:	11

KOHLER Diesel

KOHLER Diesel

Model **WD48/120**

DISP. cfm/lpm:	48.1/1361
FAD cfm/lpm:	40.2/1138
Tank Size:	120Ltr
Weight:	207kg
Size (LxWxH):	147 x 53 x 103cm
Engine:	KOHLER Diesel
Engine Model:	15KD500
Engine HP:	13

WESTAIR is a Western Australian family owned and operated company that has been operating since 1983. We specialise in the manufacture of air compressors for the domestic, industrial and agricultural markets. As a founding member of the Compressed Air Association Australasia (CAAA) we are committed to providing high quality products with true output ratings to ensure you get the very best value for every dollar you invest.

WESTAIR offer a wide range of diesel driven piston air compressors used extensively in all mining and industrial fields. Because you are buying Australian, you can be confident that you are receiving a highly engineered machine that meets all workplace safety standards, complete with certification. WESTAIR only use high quality proven components including KOHLER diesel engines.

KOHLER are proud to back their engines and WESTAIR, with full extended warranties. WESTAIR have carefully matched each and every engine to produce a long lasting high performance industrial machine. Produced in Italy KOHLER have a vast range of the most advanced 4 stroke, air cooled diesel engines in the world. Some of the features include; direct on-piston fuel injection; forced oil lubrication with full-flow oil filter; automatic decompression and extra fuel delivery system for easy starting. The rugged alloy crankcase with integral cast iron liner and precision manufactured alloy head, ensure maximum performance and optimum cooling - just a few of the benefits you can rely on with a KOHLER engine.

All WESTAIR diesel compressors come standard with recoil and electric start; however battery and leads are not included. WESTAIR can also offer custom built solutions. If none of our diesel range of over 6 models suit your needs, we will design and engineer a machine that will comply with all the relevant Australian Standards. For that added piece of mind spare parts and expert back up service is available for every machine we produce.

AIR COMPRESSORS

DIESEL POWERED COMPRESSORS

KOHLER Diesel

Model WD16/70

DISP. cfm/lpm:	13.7/388
FAD cfm/lpm:	9.9/280
Tank Size:	70Ltr
Weight:	80kg
Size (LxWxH):	100 x 48 x 75cm
Engine:	KOHLER Diesel
Engine Model:	15KD225
Engine HP:	4.8

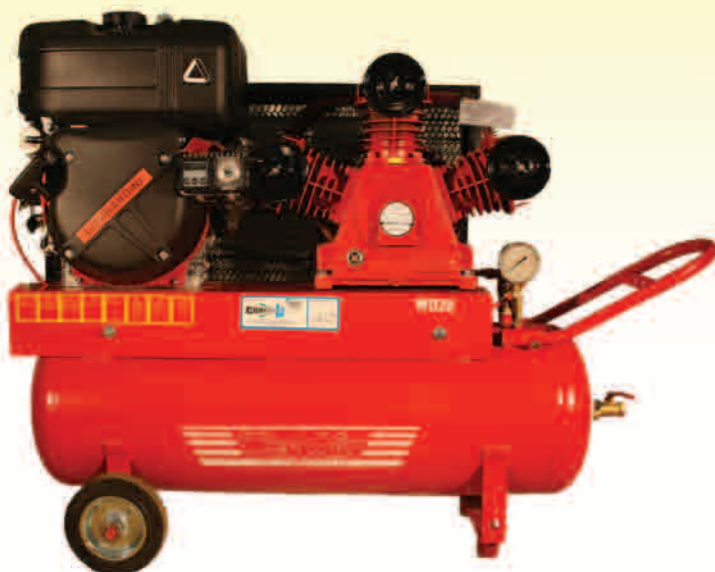

KOHLER Diesel

Model WD20/120

DISP. cfm/lpm:	20.2/571
FAD cfm/lpm:	14.7/416
Tank Size:	120Ltr
Weight:	130kg
Size (LxWxH):	128 x 46 x 88cm
Engine:	KOHLER Diesel
Engine Model:	15KD225
Engine HP:	4.8

KOHLER Diesel

Model WD20/70

DISP. cfm/lpm:	20.2/571
FAD cfm/lpm:	14.7/416
Tank Size:	70Ltr
Weight:	90kg
Size (LxWxH):	100 x 48 x 75cm
Engine:	KOHLER Diesel
Engine Model:	15KD225
Engine HP:	4.8

KOHLER Diesel

Model WD27/120

DISP. cfm/lpm:	26.1/739
FAD cfm/lpm:	18.6/526
Tank Size:	120Ltr
Weight:	179kg
Size (LxWxH):	128 x 46 x 95cm
Engine:	KOHLER Diesel
Engine Model:	15KD350
Engine HP:	7.5
