

LYCO LOADER

(HEALYGROUP)

YOUR ONE-MAN ARMY

It only weighs 50kg, but the Lyco Loader allows one individual to lift up to 300kg.

That's 300kg you don't have to lift yourself - saving your back, reducing your labour costs, and helping you get to the next job faster.

Suitable for any tradesman, farmer, or delivery driver that needs to carry a heavy load, the Lyco Loader makes light work of your heaviest cargo.

It's a must-have for anyone that works on their own.

NO COMPROMISE

Unlike cranes and other heavy-lifting devices, the Lyco Loader doesn't take up precious tray space. And because it replaces your tailgate, your payload capacity isn't compromised.

- **Minimal impact on payload capacity**
- **Minimal space required**
- **Doesn't interfere with your rear view**
- **Minimal additional wind resistance**

The Lyco Loader is safe and easy to operate. There are no power devices or hydraulics to go wrong, and it has an integral brake that stops the load at any point. You don't even need a licence to use it.

FITS MOST TRAYS, EASY TO INSTALL

The standard Lyco Loader can be fitted to most trays that are 1695mm or wider at the rear or side.

It can be installed by a dealer, or by yourself, in around an hour.

DIMENSIONS

Overall width	1695mm
Platform length	1460mm
Platform width	590mm
Max platform travel	1135mm

MAKE HARD WORK EASIER

LYCO LOADER TAILGATE LOADING SYSTEM

"Lyco Loaders are a critical asset to our delivery vehicle fleet.

The system reduces the strain on staff, which increases our production rates significantly - helping us get to more deliveries ahead of the competition".

Konrad Stempniak
Business Development Manager
Kennards Concrete Centre
Artarmon NSW

"We've used many different tailgate manufacturers and designs over the last 15 years. But since we discovered the Lyco Loader in 1999, we've never looked at using a different tailgate loader.

The Lyco Loaders are essential to our business, and they give our company the edge against our competitors".

Tyron McFarlane
National Sales Manager - Forum Transport NSW

ORDER YOURS

The Lyco Loader is manufactured and distributed by Healy Group - an Australian-owned family business based in Caringbah, Sydney.

Same-day dispatch of new stock and spare parts is available, and our Australia-wide distribution network gives you local service and support if you need it.

For sales, service and support, call Healy Group on (02) 9525 5522 or visit www.lycoloader.com.au
