<b>Zinc plating</b>	<ul style="list-style-type: none"> <li>• Rust resistance to the major parts of the machine, ensuring they will last.</li> <li>• A clean tough finish, able to with stand the punishment that the feeder has been designed for.</li> </ul>
<b>Independent rear suspension</b>	<ul style="list-style-type: none"> <li>• Smoother ride when trailing</li> <li>• Reduces stress through the frame from shock loadings, increasing the lifetime of the feeder.</li> </ul>
<b>Bi- directional, high torque Motor</b>	<ul style="list-style-type: none"> <li>• Versatility, with feeding out possible on either side of the feeder.</li> <li>• High torque motor, able to feed out even the sloppiest bales.</li> </ul>
<b>Large track width</b>	<ul style="list-style-type: none"> <li>• Combined with the extremely low centre of gravity, allows piece of mind when venturing onto undulating terrain.</li> </ul>
<b>2 pack epoxy paint</b>	<ul style="list-style-type: none"> <li>• The toughest of paint finishes, able to withstand more punishment than normal paint.</li> <li>• A better quality finish, keeping the machine looking its best for longer.</li> </ul>
<b>Feed out extensions</b>	<ul style="list-style-type: none"> <li>• Enabling the feeder to throw the shredded bale out beyond the track of the wheels, ensuring the cleanest feed for stock.</li> </ul>

**REDUCE FEED WASTAGE**

**EASY TO USE**

**FEED ANY SIZED BALE**
